The List Designer Insight: Clare Gaskin

Let us introduce you to Clare Gaskin - an Interior Designer on The List, who discusses her latest interior projects, inspirations and future business plans.

BY CHARLOTTE RICHMOND

Having trained at KLC, Clare Gaskin Interiors was founded in 2009 and the team have since worked on some fantastic properties in London and further afield. Clare's enthusiasm for Interior Design is put into every project, from large scale full renovations through to smaller spaces, which call upon a perfect feature chair or curtains to transform the room. The designer discusses her work and inspirations with Charlotte Richmond.

Tell us about a recent project that you are really proud of.

Joining the complete renovation of this Richmond family house after structural work had begun presented immediate challenges of timings and budget, moreover we felt the new proposed floor plans needed a rethink to more adequately suit this growing family. We are proud of how we tackled this and the brief for a classic contemporary space; the clients wanted a scheme that was luxurious and grown up but also fun and relevant to their age and lifestyle.

Insight: The Vintage
Entertainer**

BY CHARLOTTE RICHMOND

Luxurious details such as intricate geometric moulded pocket doors with inset panels of antique mirror glass give the ability to create a secluded grown up space within a practical family living area.

Fun is introduced to the boys bedroom, with bold colours combined to give an almost tailored look, a very smart space that we hope this toddler will not grow out of too quickly!

What have you got planned for your business in the future?

What interiors have inspired you lately?

What have you got planned for your business in the future?

Growing the team and welcoming new and old clients and suppliers to our recently opened studio space in Putney, London.

What interiors have inspired you lately?

A private tour of the Fitzrovia Chapel, it's a hidden gem in the heart of London.

Dream project or client.

We're currently working on a dream project with a very special client. The apartment has largely been untouched for almost 40 years. The rooms have wonderful proportions but do not lend themselves to the clients lifestyle and changes in modern living. We have had to re-think everything about the property and we have the ability to design bespoke furniture (something we really enjoy doing) as well as incorporating our clients existing antique furniture collection. Coupled with all of this is the clients love of the contemporary, colour, plants and art, an opportunity to create something extra special. Even more so as the client is my Mum, which is quite daunting.

What is your favourite Instagram account to follow?

For interiors, I love [@trilbeygordoninteriors](#), [@studioashby](#) and [@agentofstyle](#), I am envious of their inspirational, thought provoking posts and lifestyle, often featuring events that I don't make it to. Beyond that, as a working Mum, [@upallhoursphotos](#) makes me chuckle and realise I'm not alone!

Favourite accessory/wallpaper/paint/fabric?

Little Greene Paint Company's Mister David bright yellow paint makes me smile each time I open our front door.
