**ELEGANT & TAILORED**  
KLC-trained Clare Gaskin's stylish cook space offers understated sophistication with a touch of luxe

Creating classic-contemporary spaces, often with playful touches but always timeless, Clare Gaskin is passionate about transcending trends and considering sustainability at every level. Her background in Fine Arts shines through this scheme, which celebrates colour, shape and movement. Alongside classic bespoke cabinets, Clare has selected furniture with modern silhouettes from British makers and Italian designer brands. 'An induction hob is energy-efficient, and I love Bora's discreet, hidden extraction,' explains Clare.
